Benefits of PHSC Sponsor/Corporate Membership

Prevention in Partners PSA (Gold Corporate Level)

The PHSC sponsors a variety of anti-drug messages that promotes no alcohol, tobacco, and other drug use among youth. Sponsors will have the opportunity to participate in filming of prevention commercials, which will be aired on local television stations throughout the year. For additional information on the type of commercials that we produce, please go to www.phsc-inc.com

Logo/Link on PHSC Website (All Levels)

PHSC will be adding a special membership/sponsorship web page to our site that lists all of our business/corporate partners, that urges visitors to support the organizations that support PHSC efforts in reducing alcohol, tobacco and other drug use. Here we will post your logo along with a link to your website.

Logo on Quarterly Newsletter

PHSC publishes a quarterly newsletter that is shipped to community members in our targeted area. In addition, our newsletter will be published electronically which will lead to addition exposure for your company.

Listed as a Sponsor of PHSC Special Event (Silver & Gold Corporate Levels)

During the year, PHSC sponsor and host a number of different community events that focus on preventing alcohol, tobacco, and other drug. All of these events are by invitation only and provide great networking opportunities for all involved.

One of the highlights of these special events in our mother and daughter social which highlights mothers and daughters together for a fun filled social evening which provides an opportunity for families to bond and interact together. Because most of these events are invitation only, your company name would be placed on all promotional materials and invitations sent leading up to the events. In addition, your logo or banner would be displayed at the event itself.

Membership Certificate; (All Levels)

PHSC will send a membership certificate to proudly display. This will let everyone know that you are a supporter of PHSC and an advocate of no alcohol, tobacco, and other drug use among youth.
